Hi Robert,

I am looking to get clarity on something the administrator said while

on the ground in Colorado. She mentioned 2 reviews would be done one by EPA and the other by an independent entity. Which independent entity is doing the review? Has that review started? Has EPA started its own internal review? When will it be complete. CNN would like to get a background conversation with the individuals doing the internal EPA review once they've gathered all the information they need.

I look forward to hearing from you.

Best,

Rene Marsh
